What is Tooele City doing to Conserve Water?

How Can I Conserve Water?

- WATER EARLY MORNING/EVENING
- 320 = DAILY # OF GAL. USED BY A FAMILY OF (4)
- CARWASH SAVES MORE WATER THAN WASHING IN DRIVEWAY
- ENCOURAGE WATER CONSERVATION
- TAKE A FIVE MINUTE SHOWER VS BATH
- LEAKY TOILET WASTES MORE WATER PER DAY THAN WASHING DISHES, RUNNING GARBAGE DISPOSAL OR TAKING A LONG SHOWER
- IT IS NOT OKAY TO FLUSH ITEMS DOWN THE TOILET SUCH AS:
COTTON BALLS, WIPES, TISSUES, ETC.

WATER CONSERVATION SCHEDULE

Tooele City Corporation

WATER CONSERVATION SCHEDULE

Tooele City has implemented a water schedule for outdoor water use for all local residences, businesses, schools, and government agencies using culinary water.

In the water conservation schedule, the City is divided into three sections and watering is allowed twice weekly. (See adjacent table.)

Area #1 All water users north of Vine and west of Main water Wednesdays and Saturdays.

Area #2 All water users north of Vine and east of Main water Tuesdays and Fridays.

Area #3 All water users south of Vine water Mondays and Thursdays.

Outdoor watering is not permitted on Sundays.

The City encourages residents not to water during the hottest hours of the day, typically between 10 a.m. and 6 p.m. This conserves water and reduces the amount of water bills.

If there are special circumstances that require a modified schedule for residents or businesses — such as newly planted sod or lawn, contact Tooele City at (435) 843-2150.

City parks and schools have been placed on modified schedules because of the size of their lawn areas. While some parks and schools may be watering more than two days each week, a specific area of that park is only watered twice during the week.

Water Wise Tips

- Irrigate By Zone** — Lawn, trees, shrubs and flowerbeds all have different watering requirements. Separate your landscaping into different irrigation zones, then water accordingly.
- Hand Water Dry Spots** — If you have a dry spot on your lawn, water it by hand to avoid over watering the remainder of the lawn.
- Repair Your Sprinklers** — Check all your sprinkler heads and hoses for leaks or winter damage. Adjust sprinkler heights and angles to increase water efficiency.
- Use Your Broom** — Sweep sidewalks, driveways and other paved areas with a broom instead of using the hose.

Our outdoor water conservation schedule is voluntary. We ask our citizens to please cooperate with this schedule as this will allow the tanks to fill during off hours. Please use water-wise practices, we all need to conserve water, a precious resource!

UTAH PROGRAMS AND REBATES

Toilet Replacement

AVAILABLE FOR:

ALL
OF
UTAH!

Old toilets are a leading cause of wasted water in Utah homes. Rebates will only be given for replacing toilets that use more than 1.6 gallons per flush and were installed in homes built before 1994.

Smart Controller Rebates

AVAILABLE FOR:

ALL
OF
UTAH!

Smart controllers can help save water by automatically adjusting watering schedules based on local weather and landscape needs. Ready to stop worrying about turning your sprinklers off after it rains? Rebates for smart controllers are available throughout the state.
