FROM THE MAYOR

Mayor
Patrick
Dunlavy

What an exciting past few weeks for our great City! A groundbreaking ceremony was held for Cabela's new 600,000 square foot Distribution Center, which over time, will create around 300 new quality jobs.

Another exciting groundbreaking was held for Utah State University's new Tooele Science and Technology Building. This 16,000 square foot building is going to be a beautiful addition to Utah State's regional campus.

Also, the announcement was made that Airgas Specialty Gases will be bringing their operation to our city.

I'm so proud of the hard work and expertise we have

at Tooele City that has prepared us for and has been responsible for us to have these significant successes in our Economic Development work. I know these new projects are just the beginning of a very exciting future to come.

Thanks to the great staff at Tooele City, the leadership and experience of the City Council, Cabela's management staff, and Dean Donna Dillingham-Evans and her staff at Utah State. The tireless efforts of many have made all of this possible.

I am, and will always be very grateful to Mr. Randy Sant for his experience and expertise along with his tremendous commitment to helping make our City so successful.

If you have any questions or comments, please feel free to contact me at 435-843-2104 or email me at patrickd@tooelecity.org.

Water Conservation Schedule

Area #1 All water users north of Vine and west of Main water Wednesdays and Saturdays.

Area #2 All water users north of Vine and east of Main water Tuesdays and Fridays.

Area #3 All water users south of Vine water Mondays and Thursdays.

Outdoor watering is not permitted on Sundays.

The City encourages residents not to water during the hottest hours of the day, typically between 10 am and 6 pm. This conserves water and reduces your water bills.

If there are special circumstances that require a modified schedule for residents or businesses—such as newly planted sod or lawn, contact Tooele City at 843-2150.

City parks and schools have been placed on a modified schedule because of the size of their lawn areas. While some parks and schools may be watering more than two days each week, each specific area of that park is only watered twice during the week.

Thank you for your help in conserving water, a precious resource.
