# Ninety North Main

Volume XV, Issue 11

November 2014

### From Mayor Dunlavy...

Mayor Patrick Dunlavy

In an effort to address issues such as energy use and costs in Tooele City government, I have initiated a program that will help us to more efficiently manage these costs. This plan will identify, implement and help us realize savings in areas such as power reduction, energy reduction, building heating and cooling costs, and lighting. It will also

address hot water costs, and heat pumps involving natural gas.

This program will develop strategies in regards to control, billing matters, and power generation. We will seek incentives and rebates from the utility companies under their existing programs. This program's purpose will be to reduce equipment costs, upgrade our systems and reduce maintenance costs.

The first area that we will be focusing on is the streetlights throughout the City. The power

company will hopefully now become our partner in not only getting the streetlights back on, but upgrading and assisting us in the expense as well.

As always, if you have comments or questions, please contact me at my office at (435) 843-2104 or send me an email at [patrickd@tooelecity.org](mailto:patrickd@tooelecity.org).

Tooele City Arts Council Grant applications will be available soon! Watch our website [www.tooelecity.org](http://www.tooelecity.org) for more information or call 435-843-2142.
