NINETY NORTH MAIN

VOLUME XV, ISSUE 9 SEPTEMBER 2014

A very difficult time came to an end when the lawsuit between Tooele City and Tooele Associates reached a settlement. I want to express my appreciation to Mr. Hall and Mr. Perry for their willingness to continue to negotiate. We tried on many occasions over the years to end it before now. It’s important for each of you to know we never stopped in our efforts to settle. We also never stopped in our efforts to protect the City from this litigation. As you know, it started long before I and most members of the current City Council were in office.

It is over now and it is time to move on with the work of this very special City.

I’m grateful to City Attorney Roger Baker, our outside attorneys Chris Hogle and Ted Barnes,

Mayor Patrick Dunlavy

members of my administrative staff, and the members of the City

Council; in particular, Council Chairman Brad Pratt and Councilman Scott Wardle who negotiated the settlement. The three of us spent many hours working to bring the suit to an end. I cannot say enough about the tremendous job these two men did. I am proud to work with them and the members of the City Council in doing the business of the City.

As always, if you have questions or concerns, please contact me at my office at 435-843-2104 or email patrickd@tooelecity.org

The Tooele City Arts Council would like to thank all those who came to Fridays on Vine this year! It was a wonderful season with outstanding performers and great entertainment! We look forward to seeing you next year—Fridays on Vine!

Reminder — Garbage will not be picked up on Labor Day, Monday, September 1. Services will be delayed one day that week starting with the holiday.

September is National Preparedness Month!

It is a time to prepare yourself and those in your care for emergencies and disasters. If you've seen the news recently, you know that emergencies can happen unexpectedly in communities just like ours, to people like us. We've seen tornado outbreaks, river floods, flash floods, historic earthquakes, tsunamis, and even water main breaks and power outages in U.S. cities affecting millions of people for days at a time.

Police, fire and rescue may not always be able to reach you quickly in an emergency or disaster. The most important step you can take in helping your local responders is being able to take care of yourself and those in your care; the more people who are prepared, the quicker the community will recover.

This September, please prepare and plan in the event you must go for three days without electricity, water service, access to a supermarket, or local services for several days. Just follow these four steps:

- *Stay Informed: Information is available from federal, state, local, tribal, and territorial resources. Access Ready.gov to learn what to do before, during, and after an emergency.
- *Make a Plan: Discuss, agree on, and document an emergency plan with those in your care. For sample plans, see Ready.gov. Work together with neighbors, colleagues, and others to build community resilience.
- *Build a Kit: Keep enough emergency supplies on hand — water, nonperishable food, first aid, prescriptions, flashlight, and battery-powered radio — for you and those in your care.
- *Get Involved: There are many ways to get involved especially before a disaster occurs. The whole community can participate in programs and activities to make their families, homes and places of worship safer from risks and threats. Community leaders agree that the formula for ensuring a safer homeland consists of volunteers, a trained and informed public, and increased support of emergency response agencies during disasters.
