What to do when you see an Emergency Vehicle approaching!

This may seem like common sense to some, but when dealing with emergency situations we commonly see drivers panic and over-react or react incorrectly when they see an emergency vehicle with lights and sirens approaching them. Here are some rules to remember:

1. You must yield the right of way.
2. Drive to the far right edge of the curb.
3. Clear the intersection.
4. You must STOP!

When you see an emergency vehicle approaching, (if possible) pull your vehicle to the far right side of the roadway. If you can't pull right then leave room for the emergency vehicle to get by. If you are already stopped, stay put! Once the emergency vehicle has passed, be sure to re-enter the travel lane with caution. Always keep the intersection clear because you don't know which way the emergency vehicle will have to go. As curious as you may be, do not follow an emergency vehicle leaving a scene. Finally, if you come to an intersection blocked by emergency vehicles, slow down! Watch for directions given by police personnel on the scene and proceed as directed.

Please be courteous to your neighbors, do not blow leaves, snow or other debris into their yards.

Parking on City Streets

Tooele City reminds citizens of an ordinance prohibiting parking on any city street from **November 1st to March 31st** during the hours of 2 am to 6 am.

City snow plow drivers can't remove snow from your street if there are cars and trucks parked in their way. You could be ticketed!

Keep Your Pipes Open To Avoid Freezing!

Every year when the weather turns cold the City sees a rash of reports of frozen pipes. The best thing that you can do to prevent this in your home is to keep the pipes open. Leaving a slow drip or trickle in a faucet overnight, when the temperature and water usage is lowest, can prevent the water in your pipes from sitting still and freezing. As the weather gets colder over a longer stretch of time, the ground freezes deeper and deeper and puts more homes at risk of frozen pipes every day. Yes, the slow drip or trickle may end up costing you a little extra on your water bill, but that amount will always be dramatically less than the cost to repair frozen pipes in your home and the water damage it can cause. Questions? Call our Public Works Department at 435-843-2130. For after hours (non life-threatening) emergencies, please call dispatch at 435-882-5600.
