November 2019

## From Mayor Winn...

The leaves have begun to fall and it is that time again to prepare for the winter ahead. In November of last year, I said that I was hopeful that we would receive the much needed water that would take us through the next year, and we did! I am hopeful that we may receive the moisture again. We have added four new 1 ton snow plows to our fleet. This will help us to remove the snow from our roadways more efficiently, after several break-downs last year. I would like to remind our residents that beginning November 1st, you will not be allowed to leave vehicles parked on the street between the hours of 2am and 6am. I would also encourage you to keep your vehicles off the street at any time when there is a projected snow storm. This will allow our crews to remove the snow more efficiently.

We are approaching the time of year when we are reminded of the

many things we are grateful for! I hope that you are able to spend time with family and friends. Please reach out to those in need who may be alone during the holidays. I appreciate the great

Mayor  
Debbie Winn

service provided by the city staff. I am grateful for the opportunity I have to serve you and wish each of you a happy holiday season!

If you have questions or concerns, please reach out to me at my office at 435-843-2104 or by email at [dwinn@tooelecity.org](mailto:dwinn@tooelecity.org).

Thank you!

## DRINKING WATER SOURCE PROTECTION ACT FOR CLEAN WATER

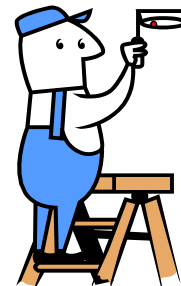

The Drinking Water Source Protection Plan for Tooele City is available for your review. It contains information about source protection zones, potential contamination sources, and management strategies to protect each of our drinking water sources. Potential contamination sources common in our protection areas include sanitary sewer lines, septic tanks, roads, residential, commercial and industrial areas, etc. These sources of potential contamination are typically classified as a low susceptibility. Sources which are classified as medium susceptibility include buried fuel storage tanks, accidental spills of potential contaminants, or other similar conditions. The City has developed management strategies to further protect all of our sources from contamination. Please contact the Public Works Department at (435) 843-2130, if you have questions or concerns about our source protection plan.

**CONGRATULATIONS TOOELE CITY LIBRARY!** Every two years, our library has the opportunity to apply for an enhanced library certification status known as being a "Quality Library". Your Tooele City Library was presented with this award by the Director of the Utah State Library on October 3, 2019 at the annual Utah Library Director's Summit. Earning this award is a distinction that goes beyond regular certification standards. Quality libraries are required to meet 6 of 10 enhanced criteria and be recommended for quality status by the State's certification review team. Your library exceeded that target and met 8 of the 10! Thank you to our Library Director, Jami Carter and all of the staff at the Library for their hard work, commitment, and dedication to making our Library the best!

## GREEN BIKE LANES!

The new bike lanes on 100 East between 1000 North and Vine Street, and on Vine Street between 100 East and Tooele Boulevard were completed in October 2019. The lanes are now marked and signage is up. Here's how to navigate your motor vehicle and bicycle on the roads with bike lanes:

- In the non-green areas, there is a parking lane, a marked bike lane, a buffer lane, and a lane for motor vehicle travel. Everyone has their own lane. Always be cautious of bicycle and motor vehicle traffic.
- Where there are painted green lanes, motor vehicles and bicycles share the same green lanes, the same way motor vehicles share the lane.
  - ⇒ When there is a bicycle in the green area they have the legal right to use the entire travel lane as if they were a motor vehicle and motor vehicles have the responsibility to yield to their full use of the lane and follow behind them as they would any other vehicle on the road.
  - ⇒ If there are no bicycles present the motor vehicle has full use of the travel lane including in the green marked area as if there were no green markings.
- It is legal to turn across a double yellow line where they run parallel and close together (such as on 100 East and on Vine Street).

This project was paid for by UTA through a TIGER Grant from the U.S. Dept. of Transportation and Proposition 1 funds. Tooele City did not contribute funds to this project. If you have any questions, please contact the Tooele City Community Development Department at 435-843-2132. Thank you!
