Ninety North Main

FROM THE MAYOR

**Mayor
Debbie
Winn**

What an exciting time for Tooele City!!! During the month of May, we saw hundreds of residents who cleaned up their yards and neighborhoods in support of our #TakePrideTooele Spring Clean-Up event. Many groups spent countless hours beautifying our City from cleaning up roadsides to planting flowers at the cemetery. I want to express my deep appreciation to each one of you for your dedication

to our City and for making it a place to be proud of. The month ended with a parade through town to thank individuals who were nominated by their friends and neighbors for the work they do to keep their homes and yards looking wonderful. It was a great opportunity for myself and the City Council to get out and thank you in person!

On May 15th we were finally able to hold our dedication and public open house for our new police station. Many thanks to the officers and staff who were in attendance to talk to the residents and show the building

to our residents. Many thanks to Chaplain Bill Upton for the beautiful dedicatory prayer he offered at the event. Thank you to Chief Kirby for his inspiring words as he expressed his appreciation for our officers and for the beautiful building.

Tooele City is a wonderful place to live and be proud of. Your support of the efforts of the Administration and the City Council is greatly appreciated.

If you have comments or concerns, please call my office at 435-843-2104 or email me at dwinnto@tooelecity.org.

ATTENTION ALL TOOELE CITY ONLINE UTILITY PAYMENT CUSTOMERS!

As of May 31st, if your Tooele City utility account has not been switched over from Xpress Bill Pay to our new Municipal Billing Payment Software your automatic payment will not draft for June’s payment or any future payments. Please visit our website tooelecity.org for instructions on how to switch over your account, or if you have any questions, please contact the Finance Office at 435-843-2150.

THE GARDEN ANSWER CLINIC — A free service provided to the public by USU Extension and the Tooele Extension Master Gardeners. Visit them on Wednesdays from 3pm - 6pm in the Health Department Building. Bring samples, pictures, and questions about your yard or garden.

Be Waterwise!
Adjust your automatic sprinkler timer to coincide with rain events and weather changes so you don’t overwater!

Water Conservation Schedule

Area #1 All water users north of Vine and west of Main water Wednesdays and Saturdays.

Area #2 All water users north of Vine and east of Main water Tuesdays and Fridays.

Area #3 All water users south of Vine water Mondays and Thursdays.

Outdoor watering is not permitted on Sundays.

The City encourages residents not to water during the hottest hours of the day, typically between 10 am and 6 pm. This conserves water and reduces your water bills.

If there are special circumstances that require a modified schedule for residents or businesses—such as newly planted sod or lawn, contact Tooele City at 843-2150.

City parks and schools have been placed on a modified schedule because of the size of their lawn areas. While some parks and schools may be watering more than two days each week, each specific area of that park is only watered twice during the week.

Thank you for your help in conserving water, a precious resource.

DRINKING WATER SOURCE PROTECTION

The Tooele City Water Quality Report is available for your review, and has been mailed to all water utility account holders within the City. The Report is also available on the City's web page at the following link: <http://tooelecitey.org/city-departments/public-works/water-department/water-quality-reports/>

We are pleased to inform you that your drinking water continues to meet all U.S. Environmental Protection Agency (EPA) and State drinking water health standards.

Tooele City vigilantly safeguards its water supplies by:

- Establishing drinking water source protection zones for each of the City's sources;
- Adoption of City Ordinance and reliance of County Ordinance which regulate potential hazards to the City's drinking water sources; and
- Collecting and analyzing water quality data to evaluate watershed protection efforts.

You can help by:

- Read and follow usage guidelines on detergents, fertilizers and pesticides;
- Do your part to prevent runoff into the storm drain system;
- Properly dispose of household products such as cleaners, oil or gasoline and unused medicines;
- Continue your water conservation efforts; and
- When you notice someone else contaminating the water, remind them that "We all live downstream."
