Mayor Debbie Winn

MAYOR'S MESSAGE

MAYOR DEBBIE WINN

During the past few years, I have been meeting with those who participate at the Tooele Senior Center on the first Monday of each month for a discussion called "Monday with the Mayor". The participants have been informed about how the City operates and what is going on city-wide. The meetings have been so successful that I have decided to organize a "Monday with the Mayor" event at City Hall on a monthly basis.

I invite you to join me at 7:00 p.m. on the first Monday of each month, here at City Hall or on our Facebook page @tooelecity to listen to a short presentation on a specific subject and then I will ask for questions from the residents about that topic. I will be joined by a few members of the City Council as well as staff and employees who can help answer questions. We hope that citizens will find this helpful in getting the "true" information rather than "fake news" from other sources. Our first meeting will be held on April 4th and the topic will be on how our Police Department is responding to graffiti and speeding — two hot topics!

Although I have a list of future topics, you are welcome to let us know what you want to discuss. Just send me an email and I'll add it to the list.

I encourage you to join with your neighbors as we begin the spring clean up projects for the next few months. A list of projects is included on our website, tooelecity.org, and I also encourage you to check out the new neighborhood clean-up trailer and work with your neighbors to make your neighborhood look even better!

City Council Meetings are generally held the 1st and 3rd Wednesdays of every month at Tooele City Hall. Meetings are open to the public and available through livestream on Facebook @tooelecity. Meeting agendas, minutes, and Facebook video links for the meetings are available on our website tooelecity.org.

THE COUNCIL'S CORNER

BY COUNCIL MEMBER MARESA MANZIONE

Tooele has a great history – since the town was settled, we have welcomed many different groups of people, from miners and army ordinance workers to residents from different countries, and people with different religious and political backgrounds. This is part of what makes Tooele a great place to live. As we welcome more residents to the community, it is important to keep our community vibrant, unified, and beautiful. One way to do this is through Art and Recreation.

The PAR tax (Parks, Arts, and Recreation) was originally approved by voters in Tooele in 2004 and again in 2012. State law requires that voters have the opportunity to renew the tax every 10 years. This year's ballot will include a question about whether our community is willing to renew the PAR tax. This tax is 1/10th of 1% sales and use tax (that's one penny for every \$10 spent).

In the past 18 years, Tooele City has used this money to replace playground equipment, put in new courts and lighting at parks, build walking paths, contribute to art projects in the city, help with museum improvements, fund Fridays on Vine and other concerts, and grant money to art organizations (through the Arts Council) like community theater and the arts festival. These are just a few examples. The money collected from this tax can only be used for qualified recreational facilities, cultural organizations (not the city, state, or school district), and cultural facilities in Tooele City.

There are several new historic murals in downtown Tooele - I hope you get a chance to go see, photograph, and share these art projects with others. I appreciate the talent and donations that were given to make these awesome projects happen. I look forward to more murals being painted and funded through Arts Council grants. I believe that a community with opportunities for its residents to participate in Art and Recreation is important in building a better city.

MIDVALLEY HIGHWAY S.R. 179

Midvalley Highway Environmental Assessment

Now that the Utah Department of Transportation (UDOT) has constructed Midvalley Highway (State Route 179) to provide a new connection from Interstate 80 (I-80) to S.R. 138, UDOT is conducting an Environmental Assessment (EA) to evaluate potential alternatives and determine the best alignment to connect Midvalley Highway from S.R. 138 to S.R. 36. The study team is hosting a Public Scoping Meeting to gather public input regarding transportation needs and environmental concerns within the study area. The input received will help the team as they develop a preferred alignment. The public will be able to view and comment on the preferred alignment later in 2022.

The Public Scoping Meeting will be open to the broader public and have both an online and in-person meeting option:

Online Presentation and Q&A

The same information will be presented at both meetings. These meetings will kick off a public comment period that will run through May 12, 2022.

Register for the online meeting on the study website at www.udot.utah.gov/midvalley/. Please reach out to a study representative with any questions or concerns at 435-269-2440 or midvalley@utah.gov.

FROM THE FINANCE DEPARTMENT AT TOOELE CITY**April Bills:**

You may have noticed that we have not been out reading meters during the winter months. Each year the City estimates water usage for the winter months. This estimated usage is based upon the average water used at the location during the prior year (November-March). When we take the first reading of the year in the month of March the consumption is then billed based off of actual usage. Customers will see a positive or negative consumption indicating that they are either being billed for unbilled water usage, or credited for unused units that have been billed for.

It is important to watch for high water consumption on your April billing as this can indicate a water leak during the winter months. Additionally, it will impact your next year's winter water average and your sewer average calculation (see below). If you notice an unusually high consumption please call us and we can check the meter for leaks. Also, please be sure to report any leaks that have been repaired during these winter months to the Tooele City Finance Department for a partial credit to your account.

Sewer Rate Re-calculations:

Sewer charges are calculated every year and your new monthly charge appears on the April bill. The sewer charge is calculated based off of actual water used during the winter months from November through March.

The sewer billing is a combination of two fees:

Base fee of \$7.00 +

A Base fee of \$2.00 per unit of water averaged during the winter months (calculated November through March, which normally accounts for internal water use only).

If your rate has increased some common things that can cause an increase in the charge is an increase of household members, working from home, outside watering after November 1st, and leaks in the inside or outside of home during the winter months. If you did experience a leak please call our office.

Equal Pay Re-Calculations:

Customers currently enrolled in our equal pay program will have their equal pay amounts re-calculated on the April bill. Equal Pay is an average of what is actually used for the last 12 months of billing for all services billed. It is important to note that actual meter readings of winter usage and sewer rate changes reflected on the April billing will not impact this re-calculation as it will be for service from April 2021—March of 2022 billings.

It is very important for all equal pay customers to review their water usage monthly as this is the only way to quickly identify a possible leak or problem. If usage is not monitored it can take up to 12 months for this to show up in your billing which not only costs money but wastes our precious resources. Please report any unusually high usage amounts to our office.

The Finance Department can be reached at (435) 843-2150 or at utilities@tooelecity.org.

WATER CONSERVATION

As Spring approaches, it is important to our community that we be mindful of water conservation and implement good watering practices. Don't start watering too early! Thank you for your efforts over the many years we have had our water conservation schedule in place! Watch for the outdoor Water Conservation Schedule in next month's newsletter and follow us on social media for water conservation tips!

Have you ever wondered who is responsible when your sewer lateral or water service line needs repair? City Code 8-6-13 states "All building sewers, including the connection to the POTW sewer, shall be maintained by the property owner". Property owners are responsible for their own sewer laterals up to the wye connection to the main sewer line. City Code 9-4-6 states "Tooele City shall maintain the service pipe from the main line to and including the water meter and other apparatus within the meter box". Property owners are responsible for their own water lines from the meter box connection into the property and structure. Did you know that Utah law requires the City to educate citizens on this? Check with your homeowners insurance to inquire if your policy covers these types of repairs. There are private companies who offer this type of insurance coverage if your homeowners insurance does not. If you have any questions, please feel free to contact the Public Works Department at 435-843-2130.
