MAYOR'S MESSAGE

MAYOR DEBBIE WINN

On March 3, 2023 I made the decision to close the Tooele City Library after an assault involving teens occurred the day before. After further investigation, I learned there have been many events that have taken place in the last several months that involve destruction of library property, filthy language yelled at library staff, suspected vaping and drug use, and other unacceptable behavior.

During the three week shutdown, library staff continued their work serving residents in the same manner as was delivered during the COVID closure. The library was reopened on March 27th with a temporary policy and a strict compliance protocol put into place.

Tooele City's goal is to provide a library environment that is safe, secure, positive, productive, and pleasant for our personnel and patrons. Library policies regarding patron conduct are in place to support this goal. Persons whose conduct violates these policies adversely affect the library experience and environment for personnel and patrons.

The behavior of a few adults and several teenage patrons had escalated to a level that created a hostile and unacceptable work environment for our staff and an unacceptable atmosphere for our library patrons. Effective March 27th, all library policies will be strictly enforced. Patrons refusing to cease policy violations will be expelled from the library indefinitely.

The temporary policy requires that minors under the age of eighteen (18) must be accompanied and adequately supervised on the premises by a parent or a legal guardian. If proof of age cannot be provided upon request, the patron will be refused entrance to the building. Additional information will be posted at the library entrance, on our website, and on City social media pages. Written copies of the policy are available at the library entrance.

Security cameras have been installed to assist with enforcement of library policy and for the safety of library personnel and patrons. It is disappointing that I have to take this step to bring the library back to a place of learning and of safety. All patrons should be able to use the library for its intended use. Our library is a great resource for our community. I am excited, as I know you are, that the library is open again and hope that you will return and enjoy the many events, programs, classes, books, and resources the library has to offer.

THE COUNCIL’S CORNER

BY COUNCIL MEMBER JUSTIN BRADY

The unveiling of the Tooele City puzzle by Eric Dowdle was held on February 25, 2023 and the event exceeded all my expectations. It was heartwarming to watch the different businesses and individuals participate and place their piece of the puzzle. Eric Dowdle’s philosophy of “no missing pieces” and the importance of the individual really hit home for me, especially with the recent tragedies in our community. Everyone plays a unique and important role in making our community special.

Mayor Winn and the Council started budget discussions for the fiscal year 2023-2024. On February 13, the Council, Mayor, and several department directors met to discuss goals and priorities for the upcoming budget. We will have several additional budget discussions over the next few months before the budget is finalized in June. I encourage the public to attend these meetings. The current fiscal year budget can be found at tooelecity.org. Please continue to reach out with any questions, concerns, or ideas to improve our community.

FROM THE FINANCE DEPARTMENT AT TOOEELE CITY

April Bills:

You may have noticed that we have not been out reading meters during the winter months. Each year the City estimates water usage for the winter months. This estimated usage is based upon the average water used at the location during the prior year (November-March). When we take the first reading of the year in the month of March, the consumption is then billed based off of actual usage. Customers will see a positive or negative consumption indicating that they are either being billed for unbilled water usage, or credited for unused units that have been billed for.

It is important to watch for high water consumption on your April billing as this can indicate a water leak during the winter months. Additionally, it will impact your next year’s winter water average and your sewer average calculation (see below). If you notice an unusually high consumption, please call us and we can check the meter for leaks. Also, please be sure to report any leaks that have been repaired during these winter months to the Tooele City Finance Department for a partial credit to your account.

Sewer Rate Re-calculations:

Sewer charges are calculated every year and your new monthly charge appears on the April bill. The sewer charge is calculated based off of actual water used during the winter months from November through March.

The sewer billing is a combination of two fees:

Base fee of \$7.00 +

A Base fee of \$2.00 per unit of water averaged during the winter months (calculated November through March, which normally accounts for internal water use only).

If your rate has increased some common things that can cause an increase in the charge is an increase of household members, working from home, outside watering after November 1st, and leaks in the inside or outside of home during the winter months. If you did experience a leak, please call our office.

Equal Pay Re-Calculations:

Customers currently enrolled in our equal pay program will have their equal pay amounts re-calculated on the April bill. Equal Pay is an average of what is actually used for the last 12 months of billing for all services billed. It is important to note that actual meter readings of winter usage and sewer rate changes reflected on the April billing will not impact this re-calculation as it will be for service from April 2022—March of 2023 billings.

It is very important for all equal pay customers to review their water usage monthly as this is the only way to quickly identify a possible leak or problem. If usage is not monitored it can take up to 12 months for this to show up in your billing which not only costs money but wastes our precious resources. Please report any unusually high usage amounts to our office.

The Finance Department can be reached at (435) 843-2150 or at utilities@tooelecitey.org.

WATER CONSERVATION

As Spring approaches, it is important to our community that we be mindful of water conservation and implement good watering practices. Don't start watering too early! Thank you for your efforts over the many years we have had our water conservation schedule in place! Watch for the outdoor Water Conservation Schedule in next month's newsletter and follow us on social media for water conservation tips!

Have you ever wondered who is responsible when your sewer lateral or water service line needs repair? City Code 8-6-13 states "All building sewers, including the connection to the POTW sewer, shall be maintained by the property owner". Property owners are responsible for their

own sewer laterals up to the wye connection to the main sewer line. City Code 9-4-6 states "Tooele City shall maintain the service pipe from the main line to and including the water meter and other apparatus within the meter box". Property owners are responsible for their own water lines from the meter box connection into the property and structure. Did you know that Utah law requires the City to educate citizens on this? Check with your homeowners insurance to inquire if your policy covers these types of repairs. There are private companies who offer this type of insurance coverage if your homeowners insurance does not. If you have any questions, please feel free to contact the Public Works Department at 435-843-2130.

know the FLOOD FACTS

"You may think you're already protected against flood damage, but you're probably not. Flooding is the most common natural disaster in Utah, yet most homeowners and renters aren't properly covered. Get to know the facts about flood insurance and get protected." <https://dem.utah.gov/floodfacts/>
