Mayor Debbie Winn

A traffic signal has finally been installed at 1000 North (SR112) and 600 West! I have been working with UDOT for the past two years to get this signal installed. Although it is a temporary signal, it is up and working. As always, traffic signals allow traffic to move efficiently from all four sides of the intersection, but it will not stop accidents if drivers do not pay attention or follow the rules. A permanent plan for this intersection will include additional lanes. When this plan is completed by UDOT and funding is secured, the intersection will be completed. I appreciate your patience as this takes time. 1000 North (SR112) is a state road and not controlled by Tooele City. My staff and I have spent many hours in meetings and communicating through phone and emails to work with UDOT on this project. I

have been impatient at times at the slow process, but I am grateful that our requests were heard.

A four way stop has recently been put into place on Coleman and 200 South. Many children cross this intersection to attend schools in the area. The intersection has been marked with four crosswalks and flags for pedestrians to hold as they cross. Please be attentive in this area and watch for pedestrians. There are more intersections in our city that are being considered for all way stops to help keep pedestrians safe.

I hope that our residents will take the time to come downtown to see the buffaloes! The artwork is phenomenal and we appreciate the sponsors of the four that have been completed. The project will continue for the next few months with six additional buffaloes. The funds generated from the sponsorship of the buffaloes will be used to improve the Downtown Area.

I hope you enjoy the rest of your summer!

~Mayor Debbie Winn

THE COUNCIL'S CORNER

BY COUNCIL MEMBER TONY GRAF

It is getting hot here in Tooele! In place of the cool wintery weather, we are now in the middle of, hopefully, an eventful summer for you. We were fortunate to have a lot of rain and snow to resupply our reservoirs and snowpack this past winter; however, now is the time to ensure all the water we gained over the winter is not lost. Consider adjusting your watering schedule for your lawn, replace leaky faucets, take shorter showers, and be creative in finding other ways to reduce water and ensure we remain waterwise.

While you look at ways to conserve water, don't forget to have fun! We have our "Fridays on Vine" evening concert series which starts at 7 pm on August 4th and August 11th. This is a great way to spend a summer night, listening to live music, getting food from food trucks, and sitting on the grass with your friends and family to relax and enjoy good music. If you have never been to "Fridays on Vine", come on out. We have some great bands lined up and you will have a great evening!

I hope you and your family enjoy the rest of the summer before school starts again. We welcome your feedback on how we can improve our City and I hope you don't hesitate in reaching out to us. Thank you for allowing us to serve you.

~Tony

Mayor's Community Recognition Award Recipients for July — Adrian and Tiffany Day

Adrian and Tiffany Day were nominated by their neighbor, Lisa Poche.

The Day's were nominated because they are consistently seen serving within the community each day. Lisa feels they promote the best of Tooele City and find the local beauty in nature all around. Adrian and Tiffany enjoy the outdoors and are often found hiking, walking, running, skiing, and taking advantage of outdoor opportunities.

When the Day family isn't enjoying nature, they can be found cleaning up around the neighborhood by rebuilding retaining walls, taking care of weeds, raking leaves, lawn work, snow removal, and different up-keeps throughout the neighborhood.

Adrian and Tiffany tirelessly assist their neighbors, friends, and community with a smile. Lisa said she understands they both serve the City of Tooele with their work and dedication, but go far beyond their jobs, as they serve each and every one of their neighbors and community members that are lucky enough to know them, and those that don't. She could not think of a family more deserving of recognition of their service and friendship, than the Day's.

Congratulations Adrian and Tiffany Day! Thank you for making a difference in our community!

Thank you to everyone who attended the Tooele City Downtown Alliance Buffalo Unveiling Event on July 13, 2023. It was absolutely incredible to hear the amazing stories of the sponsors and artists who have dedicated their time and talents to this project and the Downtown Area.

We invite residents and guests to visit the buffalo that have been placed in the Downtown Area and see all that the Downtown has to offer. Currently, there are buffalo at the following locations: Corner of Main and Vine (Veterans Memorial Park), 47 East Vine Street (Pioneer Museum Complex), 15 North Main Street, and 151 North Main Street (Tooele County Health Department). Each buffalo is unique and beautiful in its own way, and we look forward to seeing the six other buffalo that will be joining these four soon!

OUTDOOR WATER CONSERVATION SCHEDULE

2023 Watering Conservation Schedule

Area #1 All water users North of Vine and West of Main water Wednesdays and Saturdays.

Area #2 All water users North of Vine and East of Main water Tuesdays and Fridays.

Area #3 All water users South of Vine water Mondays and Thursdays.

Outdoor watering is not permitted on Sundays.

Visit slowtheflow.org for great indoor and outdoor water wise tips!

The City encourages residents not to water during the hottest hours of the day, typically between 10 am and 6 pm. This conserves water and reduces your water bills.

If there are special circumstances that require a modified schedule for residents or businesses-such as newly planted sod or lawn, contact Tooele City at (435) 843-2150.

City parks and schools have been placed on a modified schedule because of the size of their lawn areas. While some parks and schools may be watering more than two days each week, a specific area of that park is only watered twice during the week.

Thank you for your help in conserving water, a precious resource.

NUISANCE WEEDS:

Per Tooele City Code Section 8-4-4 1(a), any weeds/grass on real property under 5 acres must be cut and maintained under 6 inches. Property owners are responsible for park strip area(s) adjacent to their lot. Any lot larger than 5 acres must have a border of 30 feet cut and maintained under 6 inches. Fines may be assessed for properties not in compliance with City Code! The full text of the above referenced City Code can be found on our website tooelecitey.org. You may also contact the Tooele City Code Enforcement Officer at 435-882-8900 if you have questions or for more information.

Have you ever wondered who is responsible when your sewer lateral or water service line needs repair? City Code 8-6-13 states "All building sewers, including the connection to the POTW sewer, shall be maintained by the property owner". Property owners are responsible for their own sewer laterals up to the wye connection to the main sewer line. City Code 9-4-6 states "Tooele City shall maintain the service pipe from the main line to and including the water meter and other apparatus within the meter box". Property owners are responsible for their own water lines from the meter box connection into the property and structure. Did you know that Utah law requires the City to educate citizens on this? Check with your homeowners insurance to inquire if your policy covers these types of repairs. There are private companies who offer this type of insurance coverage if your homeowners insurance does not. If you have any questions, please feel free to contact the Tooele City Public Works Department at 435-843-2130.

 NEW FEATURE! — STREETLIGHT REPORTING TOOL

You can now report streetlights that are not working properly on our website, <https://tooelecity.org/streetlight>. Find your streetlight on the GIS map, click on your streetlight, and click "Report an Issue".

We rely on the public to let us know when streetlights are out or not working properly. Please help us by reporting streetlights that are in need of repair.

Some streetlights are maintained by Tooele City, others are maintained by Rocky Mountain Power. You can report any needed repairs to Tooele City and we will coordinate repairs with Rocky Mountain Power.

If you have any questions, please call the Public Works Department at 435-843-2130 or the Mayor's Office at 435-843-2104. Thank you!
