FROM THE MAYOR

Mayor
Patrick
Dunlavy

As a reminder, please be careful with your water use this year. We all need to conserve. The more we all commit to conserving this valuable resource, the more we all benefit. For the most part we've been fortunate to have the rain, but the dry weather's coming. Thanks for all you do.

I had the opportunity to participate in the ribbon cutting for Airgas, a new company that has relocated to our great city, bringing wonderful new job opportunities. In the next two or three months we will be cutting the ribbon on Cabela's brand new 600,000 square foot distribution

center. They will be adding over 200 jobs. I express my appreciation to these two wonderful companies for the decision to locate here. I look forward to adding more companies and additional employment opportunities to our super City. We have so much to offer—we'll continue our work to attract great companies.

It was very disappointing to get the news on the Miller Motorsports Park not extending the property lease with Tooele County. If we work together, I'm confident the property will continue in some fashion. Thank you for your input and support.

If you have comments or concerns, please call me at 435-843-2104 or e-mail me at patrickd@tooelecity.org.

Water Conservation Schedule

Area #1 All water users north of Vine and west of Main water Wednesdays and Saturdays.

Area #2 All water users north of Vine and east of Main water Tuesdays and Fridays.

Area #3 All water users south of Vine water Mondays and Thursdays.

Outdoor watering is not permitted on Sundays.

The City encourages residents not to water during the hottest hours of the day, typically between 10 am and 6 pm. This conserves water and reduces your water bills.

If there are special circumstances that require a modified schedule for residents or businesses—such as newly planted sod or lawn, contact Tooele City at 843-2150.

City parks and schools have been placed on a modified schedule because of the size of their lawn areas. While some parks and schools may be watering more than two days each week, each specific area of that park is only watered twice during the week.

Thank you for your help in conserving water, a precious resource.

SR-36 RENEWED

3 O'Clock Drive to Stansbury

UDOT will begin construction on SR-36 (Main Street) on June 1, 2015. The project will fully reconstruct the road from 3 O'Clock Drive to 1280 North and rehabilitate the pavement from 1280 North to Stansbury Parkway. Current work taking place on the Tooele City waterline will be complete by the end of June. Traffic restrictions for reconstruction of SR-36 will be similar to those used during the waterline work. One lane of traffic will remain open in each direction at all times with cross street closures as needed. Please remember to utilize 50 East and 50 West to access local businesses. **Please plan ahead, use alternate routes and anticipate the additional traffic and potential delays.**

For additional details regarding construction and traffic impacts please attend the **Tooele City Council Meeting on June 3, 2015 | 7:00 p.m. | Tooele City Hall (90 N. Main, Tooele)** The Project Team will be available 30 minutes prior to the meeting to answer questions.

DRINKING WATER SOURCE PROTECTION

The Drinking Water Source Protection Plan for Tooele City is available for your review. It contains information about source protection zones, potential contamination sources, and management strategies to protect each of our drinking water sources. Potential contamination sources common in our protection areas include sanitary sewer lines, septic tanks, roads, residential, commercial and industrial areas, etc. These sources of potential contamination are typically classified as a low susceptibility. Sources which are classified as medium susceptibility include buried fuel storage tanks, accidental spills of potential contaminants, or other similar conditions. The City has developed management strategies to further protect all of our sources from contamination. Contact the Public Works Dept. at 435-843-2130, for questions or concerns about our source protection plan.
