9-1-2. Cemetery supervisor - Creation of office.

There is hereby created the office of City cemetery supervisor, which office shall be filled by the Mayor's appointment. The cemetery supervisor shall be the cemetery sexton. (Ord. 2015-06, 12-16-2015) (Ord. 1993-09, 5-13-1993)

9-1-3. Cemetery supervisor - Registrar of burials - Disinterment.

(1) The cemetery supervisor shall be the registrar of burials for the City. Before burying any dead body in any cemetery within the corporate limits of Tooele City, or before disinterring for transportation beyond the corporate limits of the City the body of any person who has been buried therein, the relatives or other persons having charge of the body shall be required to furnish in writing to the cemetery supervisor a statement of the death, which shall be recorded in a record kept in the records of the cemetery. Such statement as well as the record shall include, if known, the name of the deceased person, when and where born, the date and place of death and the cause thereof, names of the deceased person's parents and spouse, and the name of the medical examiner, if any, also the date of burial, as well as the name of the cemetery, with the plat, lot, block, and grave number where said person is to be buried, and if disinterred and transferred beyond the corporate limits of Tooele City, the place of destination.

(2) It shall be unlawful for any person to disinter any body in the cemetery except under the direction of the cemetery supervisor. Before disinterment, a permit shall be required from the Tooele County Health Department, with the exception of cremated remains and stillborn babies. Before disinterment, the cemetery supervisor shall require a written order from the owner of the burial right authorizing such removal, which order shall be kept in the records of the cemetery. All such removals shall be recorded by the cemetery supervisor in a record kept for that purpose.

(3) The City is empowered to exercise its discretion with regards to approving or denying requests for disinterment in light of the public health, safety, and welfare. All disinterments shall comply with federal, state, and local laws and regulations.

(a) Permitted. The City will honor a request from the owner of the burial rights, subject to applicable federal, state, and local laws, upon receiving a written court order or a written request on a form provided by the City, and upon a finding of the City that the disinterment will not endanger the health, safety, or welfare of the City's employees or the public. The City may, on its own, disinter human remains in instances where a natural or human-caused disaster has exposed a grave and where disinterment is necessary to protect the public health, safety, or welfare.

(b) Prohibited. It shall be unlawful for any person to disinter the remains of a person who died from a contagious disease within 2 years after the date of burial, unless the body was buried in a hermetically sealed casket or vault and is found to be so incased at the time of disinterment.

(c) City's duties. The cemetery supervisor shall determine whether a disinterment poses a danger to the health, safety, or welfare of City employees or the public. The cemetery supervisor may refuse to authorize a disinterment if he determines that there is a danger to the health, safety, or welfare to City employees or the public. The cemetery supervisor may also refuse to authorize a

disinterment upon determining that the disinterment would disturb or damage an adjacent burial lot, casket, coffin, or vault. The cemetery supervisor may make this determination at any time during the disinterment process. Upon a determination by the cemetery supervisor that a disinterment poses no danger to the health, safety, or welfare of City employees or the public, and that the disinterment would not disturb or damage an adjacent burial lot, casket, coffin, or vault, the City will facilitate the disinterment by excavating and refilling the burial lot. The City, however, shall have no obligation to remove or return a vault or casket to or from a grave or lot. The City will comply with a court order.

(d) Requester's Duties. Absent a court order, and at least 7 business days prior to a disinterment, the requester shall submit a Tooele County Health Department disinterment permit the City request of disinterment form, and pay all applicable fees prior to the City commencing any disinterment. The requester shall arrange for and pay any associated costs for a funeral director to be present at the disinterment. The requester shall arrange for and pay any associated costs for a licensed vault company to remove the vault and its contents from the burial lot. If the burial lot does not contain a vault, or the cemetery supervisor determines that the existing vault has deteriorated to the point that it will not retain its structural integrity during the disinterment, the requester shall replace the deteriorated vault with a structurally sound vault at the requester's expense. The requester shall arrange to dispose of any deteriorated vault at the requester's cost and in a manner meeting federal, state, and local laws.

(e) Liability. The City assumes no liability for any property damage, including damage to a casket, vault, marker, monument, etc., or for bodily injury sustained during a disinterment, except those damages or injuries arising from the sole negligence of the City. The City is not liable for the acts or omissions of any third party for any reason. The City is not liable for damage to the contents of any caskets or vaults located in adjacent lots caused during a disinterment. The City is not liable for mental anguish, shock, or intentional or negligent infliction of emotional distress arising from a disinterment. The City request for disinterment form shall contain this liability provision, and the requester shall sign the form acknowledging the liability provision prior to any disinterment.
