RE: Water Reclamation Facility Solar Dryer Project

Dear Mr. Farrer,

Attached is the bid tabulation for the bids opened February 12, 2026 for the above referenced project. The apparent Low Bidder is as follows:

Project Bidding Details

Bidder:	Huber Technology, LLC
Base Bid Amount (3 Solar Dryer Turners):	\$1,971,000.00
Sales Tax on Goods:	\$ 137,970.00
Operator Interface – Allen Bradley:	\$ 112,854.00
Special Services, Shop drawings, submittals:	\$ 219,000.00
Recommended Spare Parts:	\$ 235,192.00
Total Project Award:	\$2,676,016.00

In addition to the base bid amount for goods and special services, we recommend awarding the recommended spare parts, and the operator interface to the Allen Bradley plant standard.

We have reviewed the submitted bids and Huber Technology was the only manufacturer that could provide the specialized wastewater sludge turning equipment and therefore is the lowest, responsive, and responsible bidder. All documents submitted appear to be in proper order.

We recommend awarding the **Solar Dryer Turning Equipment** contract to Huber Technology, LLC. We have attached for signature one (1) copy of the Notice of Award. Please contact me if you have any questions or concerns.

Sincerely,
J-U-B ENGINEERS, Inc.

Notes and Technical Clarifications

- Equipment specification and drawings are available upon request.
- If there are site-specific hydraulic constraints that must be applied, please consult the manufacturer's representative to ensure compatibility with the proposed system.
- Electrical disconnects required per local NEC code are not included in this proposal.
- Huber Technology warrants all components of the system against faulty workmanship and materials for a period of 12 months from date of start-up or 18 months after shipment, whichever occurs first.
- Pricing is based on Huber Technology's standard Terms & Conditions and is quoted in US dollars unless otherwise stated.
- Equipment lead time from notice to proceed with manufacturing is expected to be 26-34 weeks.
- Equipment recommendations are based on information provided to Huber Technology. Subsequent information which differs from what has been provided may alter the equipment recommendation.
- Feed sludge must be free of any pollutants which could be hazardous, toxic, radioactive, corrosive, flammable, or explosive.
- Feed sludge must be free of lime which may have been added to stabilize or improve storage of the sludge. Sludge stabilized with lime can only be treated in drying plants which are specifically designed for this purpose.
- Installation, including relocation of existing equipment such as the energy chain support brackets, shall be by others.
- HUBER recommends that the solar dryer system electrical and mechanical equipment, including the third drying lane, be deactivated prior to the commencement of installation for safety reasons.
- Section 46 76 70 Paragraph 1.3.E.1:* Please note that final O&M documentation includes items such as factory testing reports, which cannot be shared at the time of submittals. HUBER will share their standard O&M manual at the time of submittals, and will provide a final, as-built version at or shortly after the time of delivery.
- Section 46 76 71 Paragraph 2.2.B.4:* Contractor is responsible for unloading and installing new Solstice units. This includes any necessary modifications of the greenhouse to move the Solstice machines into the greenhouse space.
- Section 46 76 70 Paragraph 2.5.A:* The testing identified here can only be accommodated upon special request, after discussion during the submittal process. Please note that HUBER has NOT included costs in their proposal for factory testing of the turner with its field control panel at this time. HUBER has included standard factory testing of the turning device (bumping all motors to ensure proper operation), and separate OEM panel testing at the panel manufacturer's facility. If additional testing must be completed, please note that this will come at an additional charge, and may influence overall project schedule.

HUBER TECHNOLOGY, LLC STANDARD TERMS AND CONDITIONS OF SALE

1. ENTIRE AGREEMENT/ORDERS.

Unless otherwise noted in Exhibit A of the Proposal, this Proposal is dependent and expressly conditioned upon Purchaser's acceptance of the attached HUBER Technology, LLC (hereinafter "HUBER") Standard Terms and Conditions of Sale dated 6/30/2025.

This agreement (the "Agreement") is between HUBER Technology, LLC, ("HUBER") and Purchaser. No order for HUBER's goods or services shall be binding upon HUBER until acknowledged in writing by HUBER. Such written acknowledgement and these Standard Terms and Conditions of Sale (the "Terms and Conditions") constitute the entire agreement between HUBER and Purchaser. Any purchase order, offer or counter-offer made by Purchaser before or after HUBER's written acknowledgement is rejected and all documents exchanged prior to HUBER's written acknowledgement are merely preliminary negotiations and not part of any agreement between the parties. For example, orders submitted on Purchaser's own purchase order forms modifying, adding to, contrary to, or inconsistent with these Terms and Conditions are expressly rejected and of no force or effect and acceptance is expressly made conditional upon assent to these terms. In no event will HUBER be deemed to have in any way changed, enlarged or modified its liabilities or obligations as fixed by these Terms and Conditions including, without limitation, situations in which HUBER satisfies an order submitted on Purchaser's own purchase order form. No other terms or conditions or modification of these terms shall be binding upon HUBER unless specifically accepted in writing by an Officer of HUBER. Merely signing a purchase order or other document as a condition of payment shall not be deemed a specific acceptance of terms therein by HUBER.

Purchaser shall have been deemed to agree to these Terms and Conditions upon the earlier of acceptance of HUBER's quotation, acceptance of delivery of the goods or services or the issuance of a purchase order to HUBER.

2. Scope of Supply/Work and Ancillary Equipment

This Proposal includes only those items specifically mentioned in the equipment descriptions. Any items which may be necessary for the operation of the equipment, but are not specifically mentioned HUBER's Scope of Supply, such as motors, drives, controls, supports, piping, or otherwise, are to be supplied via additional quotation separate from this offering.

HUBER will use HUBER products or HUBER standards and colors whenever possible unless specifically called out in the quotation.

Any deviations from the HUBER standard mechanical and electrical specifications must be discussed with HUBER and agreed upon in writing. If HUBER mechanical and electrical specifications are changed, performance of HUBER equipment may be affected. If Purchaser fails to provide intake materials consistent with those in the specifications and Proposal, performance of HUBER's equipment cannot be guaranteed. HUBER reserves the right to charge additional costs to the equipment price for any non-standard mechanical and electrical components required by the Purchaser and not explicitly stated in HUBER's scope of supply in the form of a Change Order and as stated below under Article 9 Submittals.

Control Panel design (if a part of the manufacturers scope of work) is based on the specification provided and is inclusive to meet the requirements of a vendor-designed panel, whereas the components and the factory testing of the panel will meet the manufacturer's requirements for function and warranty. Additional requirements or sections of the specification to meet local authority requirements or control panel designs unrelated to the equipment section, including special labeling, testing, or integration, have not been included.

Factory testing documents will be based on HUBER (or their designated vendors') typical testing forms, modified to match the scope of the equipment outlined in this quote. If specific custom testing forms are required, example documents will need to be provided and evaluated to determine if there will be an impact to project cost.

If customer elects to supply control panel(s) for HUBER equipment, HUBER will supply the following information with their submittal: Site specific standard HUBER equipment PID for equipment being delivered, detailed control strategy for HUBER supplied equipment, setpoint names, typical ranges, and initial values, submittal comments outlining any concerns with HUBER equipment requirements as it pertains to project plans and specifications. No additional information other than these items will be shared/reviewed by HUBER during the submittal stage.

3. Exclusions Includes:

- Financing
- Cranes and/or lifting devices
- Unloading and/or storage of equipment on job site
- Foundation design and engineering (HUBER will only furnish equipment drawings and data)
- Utilities for erection, installation and operation
- Gauges and instrumentation not specifically described in HUBER scope of supply
- Rental of Vacuum Trucks, pumping trucks or any other methods for cleaning and removing sludge, water, waste or the like
- Validation and/or testing of third party or ancillary systems such as polymer dosing, fans, air balancing and the like.

- Customer travel expenses associated with witnessed factory testing (if applicable).
- If outlined explicitly in the OEM process equipment specification(s), control system spare parts *will* be included. Any spare parts will be specifically limited to those items named in OEM equipment specifications. If asked to supply these items after a Purchase Order has been issued, HUBER can offer these items via change order.

4. Abrasion or Corrosive Materials

All of HUBER's machines, control panels, and systems are manufactured from 304L or 316L grade stainless steel. Purchaser expressly acknowledges that HUBER has no control over the environment or materials where the HUBER equipment will be installed. The environment or materials the equipment may be exposed to may be abrasive or corrosive. This Proposal makes no representation or warranties concerning the service life of the equipment against such structural abrasion or corrosion. The concentration of chloride and hydrogen sulfide (H₂S) in the equipment operating environment shall be kept below the following values:

- Maximum Chloride for V2A (304, 304L)* 100mg/L
- Maximum Chloride for V4A (316L, 316Ti)* 400mg/L
- Maximum Chloride for V4A (316L, 316Ti)** 250mg/L
- pH Value of the Wastewater/Washwater >6.5
- Iron Content in Washwater <0.50mg/L

* NO hydrogen sulfide present in the area of the stainless steel

** Maximum hydrogen sulfide content of 6 ppm present in the area of the stainless steel Control panels are to be located in an environment free from hydrogen sulfide, and tin plated copper wiring is recommended for all customer field wiring installations.

Upon specific request and HUBER approval, machines may be made from Duplex grade stainless steel at an additional price for extremely harsh operating environments.

5. PRICES.

Prices are in U.S. Dollars unless noted otherwise. Until acceptance of a purchase order is acknowledged in writing by HUBER, all prices are subject to change. Written quotations expire thirty (30) calendar days from the date of quotation unless specified otherwise. After expiration of validity HUBER reserves the right to adjust pricing to take into account any increases in material costs such as steel, stainless steel finished products, stainless steel coil, etc. The determination to increase pricing due to increased material costs is within HUBER's sole discretion. Due to the **current volatility of raw materials and shipping** HUBER cannot guarantee to hold prices beyond the validity date. HUBER therefore reserves the right to adjust our pricing at time of order. Verbal quotations are non-binding on HUBER. Quoted prices do not include sales, excise, municipal, state or any other government taxes. All taxes and other governmental charges upon the production, manufacture, distribution, sale or use of goods or services to the extent required or not forbidden by law to be collected by HUBER from Purchaser, shall be paid by Purchaser to HUBER unless Purchaser furnishes HUBER with exemption certificates acceptable to the relevant taxing authorities. Price does not include installation or building modifications. Typographical and/or clerical errors made by HUBER are subject to correction.

If Purchaser causes or requests delays in manufacture or shipment beyond six (6) months from acceptance of Purchase Order, HUBER shall have the right to increase price based on any actual escalation in labor, material, overhead, and component costs. HUBER also reserves the right to charge Purchaser for any direct costs, reasonable storage costs caused by such delays and a finance charge of 1.5% of the Contract value per month.

Equipment prices broken out on the HUBER proposal for convenience are only valid when packaged together.

6. TERMS OF PAYMENT.

Invoices are net thirty (30) days from the date of invoice, unless specified otherwise and approved in writing by HUBER. In the event that the purchase order between Purchaser and HUBER requires partial payments to be made by Purchaser, Purchaser shall pay those required amounts in a timely manner or HUBER will be permitted to suspend, without penalty or liability of any kind, delivery of future goods and services to the Purchaser and terminate any agreement between the parties, even though partial payment for such undelivered goods or services may have already been received by HUBER. At any time prior to or after the commencement of delivery or work pursuant to the Agreement, HUBER may request that Purchaser provide reasonable documentation demonstrating that Purchaser has the ability to perform all payment obligations specified herein.

Progress payments are as follows:

- Special Services (10% of total Contract Price)
 - 25% upon execution of purchase order (net 30 days)
 - 75% upon approval of submittals (net 30 days)
- Goods (90% of total Contract Price)
 - 20% upon notice to commence fabrication (net 30 days)
 - 70% upon delivery of equipment (net 30 days)
 - 5% upon startup of equipment (net 30 days)
 - 5% upon completion of performance testing (net 30 days)

Past due accounts will bear interest at the rate of 1.5% per month of the invoiced amount. All invoices are payable in U.S. dollars, unless specified otherwise and approved by HUBER in writing. Acceptance of bank drafts, checks or other form of payment shall be subject to immediate collection of the full face amount thereof. HUBER may, at its discretion, impose a transaction fee on payments processed via wire transfer or by Letter of Credit.

HUBER reserves the right at any time to suspend credit or to change credit terms provided herein when in its sole opinion the financial condition of Purchaser so warrants. In such case, in addition to any other remedies provided herein or by law, HUBER may request cash payment or satisfactory security from Purchaser prior to shipment of goods.

In the event of nonpayment of an invoice when due, and without prejudice to other lawful remedies, HUBER shall have the right, without penalty or liability of any kind, to suspend further work or the delivery of future goods under this Agreement and terminate this Agreement or any other agreement with Purchaser until such invoice is paid in full; provided, however, that if such invoice remains unpaid for more than five (5) days after written demand by HUBER, HUBER may terminate this Agreement without penalty and recover all damages as a result of Purchaser's Breach.

7. RETAINAGE.

There shall be no retainage under this Agreement.

8. TAXES AND OTHER CHARGES.

The prices for Goods and/or Services do not include any sales, use or other taxes or charges payable to state or local authorities. In addition to HUBER's invoice price or quote price, Purchaser is also responsible for payment of any use-tax, sales tax, excise tax, VAT tax, duty, custom, inspection or testing fee, and/or any other fee, tax, or charge imposed by governmental or non-governmental authority arising from the Goods and/or Services provided by HUBER. Purchaser is responsible for and bears the risk of establishment of a valid exemption from any fee, tax, or charge. In the event HUBER is required to pay any of the fees, taxes, or charges listed in this paragraph, Purchaser herewith agrees to immediately reimburse HUBER for this cost, or in lieu of such payment by HUBER, Purchaser agrees to timely provide an exemption certificate or other comparable document to the entity or authority imposing said fee, tax and/or charge. In the event that any tariffs, taxes, or import duties are imposed between the goods purchased to the time of shipment, the cost of these charges will be passed on to the Purchaser. If the Purchaser does not accept the additional costs or if the Purchaser is unable to fulfill these payment obligations, HUBER reserves the right to cancel the order and issue a refund on invoices paid up to the time of cancellation, after deducting any related direct cost that HUBER has incurred to the date of cancellation. Purchaser further agrees to waive any and all claims regarding the reasonableness of such payment and will be liable to HUBER for reasonable attorneys' fees and/or court costs incurred by HUBER as a result of Purchaser's failure to pay the charges listed in this paragraph.

Submittals may be delivered in staged packages, grouped by system or purchase order structure, at the discretion of the Supplier to support efficient and timely project execution.
- Operation & Maintenance (O&M) manuals will be provided electronically via HUBER Share prior to equipment startup.
- Printed hard copies of the submittals and/or O&M manuals are available at an additional cost.

CHANGES TO DELIVERY DATE MAY RESULT IF THESE ITEMS ARE NOT ADDRESSED (If applicable).

- All necessary information including, but not limited to, up-to-date layouts, technical specifications, prints and pertinent specifications. These must be in AutoCAD DWG, DXF, IGES or STEP format and be supplied within 1 Week (5 business days) of P.O. receipt, or equipment prices and delivery may be impacted. A more specific date will be set upon the Seller's acknowledgment of the Buyer's order, and is subject to Seller's timely receipt of all conformed drawings, specification, and other information necessary for the design, manufacture, and factory witness test of the machine or product, if applicable. Seller shall not be liable to the buyer for any loss or damage direct or consequential due to any delay in delivery.
- Submittals. After receipt of the d submittal(s), they must be approved as is, or changes noted, and signed by the buyer. The buyer must return the signed approval submittal(s) to HUBER Technology within 4 weeks (20 business days) of receipt. HUBER Technology will exercise its knowledge and experience by performing an internal design review, bypassing a customer review process. This requirement may be required if the delivery date is to be achieved. Any changes in the process after purchase order is issued may result in a later delivery date, change order, or an addendum to the proposal. All changes must appear in writing using HUBER Technology C.O. (Change Order) form and signed by a representative of both HUBER Technology and the buyer before any changes can be made.
- Timing:
 - Project schedule is based upon the following: Customer approval or changes noted on Approval Submittal within 4 weeks (20 business days) of Submittal receipt.
 - In cases where changes or comments are noted, HUBER to supply resubmittal within 4 weeks (20 business days) of receipt of comments. Customer approval or changes noted on Approval Submittal within 2 weeks (10 business days) of Submittal receipt.
 - Any delays in the above approvals can impact overall project timing. HUBER Technology reserves the right to adjust project schedule based on customer delays to these milestones. Please note, each day late can result in up to a 2 day delay to project delivery. [Example: Submittal comments received 9 weeks after receipt (5 weeks (25 work days) past the due date) can result in up to a 10 week (50 work day) shift to the delivery schedule.]
 - Delays in customer milestones exceeding 6 weeks are subject to re-quote. NOTE: Changes or comments not captured in the scope may require a change order and can impact project schedule and cost. If submittals are not finally approved within 6 months of initial submission, this order is subject to change order for increase cost if necessary.
 - Any delay in the above-referenced process that is not solely due to the Seller's omissions and errors shall not be a basis for delay damages. Seller expressly reserves the right to increase costs and charge for costs relating to any delays not solely attributable for the Seller in the submittal process.
 - It is the responsibility of the purchaser to ensure timely approval of submittals in accordance with these terms. By accepting this purchase order, the purchaser

agrees to accept delivery of the goods within 18 months from the execution date of the purchase order. Failure to accept delivery within this timeframe may result in the order being subject to a change order, which may include revised pricing and/or cancellation of the order at the discretion of the seller.

10. Project Management

HUBER will assigned a Project Manager for the duration of the contract. Project Management services are included in this package and are as follows:

- Main point of contact for communication, for submittals, and shall make adjustments at their discretion.
- Provision of a complete critical path project schedule for HUBER equipment
- Coordination with HUBER manufacturing on materials procurement and fabrication to and with HUBER shipping/logistics to ensure HUBER commitments are maintained.
- No contractual warranty or indemnity relating to any service performed by Project Manager is extended to HUBER, nor are any Project Managers authorized to bind HUBER with any oral representations or statements in conflict with this Agreement.

11. PURCHASER CANCELLATION

If at any time prior to delivery of equipment, the Purchaser terminates this Agreement and/or refuses delivery, HUBER shall be entitled to receive all costs incurred during the design and manufacturing of the equipment, all costs and expenses incurred in disposing of the equipment, all costs resulting from the cancellation of any agreements with relevant suppliers and all anticipated overhead and profit on the equipment outlined in the Agreement.

12. DELIVERY & INSTALLATION.

HUBER shall not be liable for any damage as a result of any non-delivery or delay, including, without limitation, an act of God; act of Purchaser; act of HUBER; embargo; other government act, regulation or request; fire; accident; strike; war; boycott; slowdown; riot; or delay in transportation or inability to obtain necessary labor, materials, or manufacturing facilities. HUBER will use its best efforts to meet promised delivery dates, but under no circumstances shall HUBER be liable for any direct, or indirect, consequential, incidental, liquidated or other damages for delay in delivery or installation, where applicable.

Purchaser will notify HUBER within thirty (30) days after order acceptance of the scheduled delivery date. If Purchaser does not notify, a delivery date of six (6) months, unless otherwise specified by HUBER, after notice to proceed and/or approval of submittals is agreed. For any delays by Purchaser after commencement of manufacturing, a finance charge of 1.5 % per month of the contract value will be assessed to Purchaser.

HUBER reserves the right to substitute suitable alternative materials and components where necessary.

Where the services are to be performed on Purchaser's premises, Purchaser agrees to provide HUBER on a timely basis with such access, machine downtime, utilities and equipment as HUBER shall reasonably require in order to perform the services in accordance with the Agreement. If Purchaser fails to perform its obligations or shall fail to perform them in a timely manner, Purchaser acknowledges and agrees that HUBER shall be entitled to delay performance of the services,

without penalty or liability of any kind, until such time as Purchaser has complied in all respects with its obligations and to increase the price for the services to reflect any increased cost to Huber caused by Purchaser's failure to perform or late performance.

If delivery is delayed or deferred by Purchaser beyond the scheduled date, payment shall be due in full when HUBER is prepared to ship the goods or perform the services. The goods may thereafter, at HUBER's option, be stored at the risk and expense of Purchaser. If HUBER undertakes storage of the equipment, the Purchaser shall pay an additional \$3.00 per sq-ft (palletized and crated size) and an additional weekly value for each week storage continues as outlined below:

Total P.O. Value	Value added storage fees
≤ \$50,000	\$175
\$50,001-\$100,000	\$340
\$100,001-\$250,000	\$625
\$250,001-\$500,000	\$1,350
\$500,001-\$1,000,000	\$2,700
>\$1,000,000	Calculated per project

All amounts outlined above for storage shall be billed to the Purchaser at the time it is willing and able to accept delivery of the equipment. The storage fee shall be due upon receipt of the HUBER invoice and is a condition precedent to delivery of the equipment.

HUBER may at certain times provide goods or services to Purchaser prior to the issuance, delivery and acceptance of a corresponding purchase order. In such cases, these Terms and Conditions shall apply to such transactions and Purchaser shall be deemed to have accepted such Terms and Conditions upon HUBER's delivery of goods or performance of services.

13. GOODS ACCEPTANCE.

It is HUBER's intent to deliver complete orders in good condition to the final destination dictated by the Purchaser. All equipment and components delivered to the receiving location must be duly inspected upon receipt. Any visible damages must be noted on way-bill and followed up with a full inspection within a period of seven (7) days from delivery date. If a written report is not submitted to HUBER within this period it is assumed that the equipment was received in good condition, meets the specifications of the purchase order, constitutes unqualified acceptance by the Purchaser, and Purchaser waives any rights to rejection or remediation of delivered equipment.

14. FIELD SERVICE.

"Field Service" refers to the services of a Huber factory-trained representative at the site of end-use for installation inspection, start-up, observation and operator training. "Field Service" refers also to any subsequent investigations of warranty issues, operational difficulties, Purchaser complaints, or requests for post-warranty service. Purchaser acknowledges that HUBER Field Service representatives shall make all arrangements necessary with labor unions for their presence on the site. No contractual warranty or indemnity relating to Field Service is extended by HUBER, nor are its Field Service representatives authorized to bind HUBER with any oral representations or statements in conflict with or addition to the governing contract terms or any manual or instructions

provided by HUBER. This paragraph shall apply to any and all initial and subsequent Field Service provided by HUBER relating to the Goods sold to the Purchaser. Any field service work performed at site after expiration of the initial warranty period is warranted for sixty (60) days after the work has been completed.

An authorized HUBER Service Technician will be scheduled to provide start-up and commission assistance. To meet demand, HUBER may, at its sole discretion, source from an available international network of authorized technicians. HUBER is able to quote additional installation, start-up supervision, and training, which is not specifically included in the scope of supply, at the Purchaser's written request. For such additional services Purchaser shall pay the current per daily rate, per diem, and expenses, for eight (8) hours per day.
