### Volume XIX, Issue 11

November 2018

#### From Mayor Winn...

Winter is quickly approaching and I am hopeful that we will receive the much needed water that will take us through the next year.

November 6th is Election Day and I encourage you to exercise your right to vote. Take the time to learn about what is on the ballot and how it may affect your life. Educated decisions are always the best.

November 10th will be an exciting day for our City as we pay respect to the veterans who have served, and are currently serving our country. We will begin with a celebration at the armory at 11am hosted by the Tooele Elks. Beginning at 2pm at Veterans Memorial Park, we will unveil the bronze statue that will stand as a reminder of the veterans that are struggling. This statue will be the first sculpture in the United States to address the issue of veteran suicide. The Life's Worth Living Foundation has worked so hard the past 9 months to raise the money for the

statue. We are so excited to see this great piece of art displayed at our park to honor our veterans. More information about the unveiling can be found on page 2 of this newsletter.

Mayor  
Debbie Winn

I wish each of you a Happy Thanksgiving holiday! I hope that you are able to spend time with family and friends as you recognize the many things you have to be thankful for.

As always, if you have comments or questions, please call me at (435) 843-2104 or email [dwinn@tooelecity.org](mailto:dwinn@tooelecity.org).

**DRINKING WATER SOURCE PROTECTION**  
ACT FOR CLEAN WATER 

The Drinking Water Source Protection Plan for Tooele City is available for your review. It contains information about source protection zones, potential contamination sources, and management strategies to protect each of our drinking water sources. Potential contamination sources common in our protection areas include sanitary sewer lines, septic tanks, roads, residential, commercial and industrial areas, etc. These sources of potential contamination are typically classified as a low susceptibility. Sources which are classified as medium susceptibility include buried fuel storage tanks, accidental spills of potential contaminants, or other similar conditions. The City has developed management strategies to further protect all of our sources from contamination. Please contact the Public Works Department at (435) 843-2130, if you have questions or concerns about our source protection plan.
