## MAYOR'S MESSAGE

### MAYOR DEBBIE WINN

It is with deep gratitude and appreciation that I recognize and celebrate the retirement of two outstanding members of our police department. After decades of dedicated service, Officers Don Nelson and Aaron Shepard are stepping into a well-earned retirement, leaving behind a legacy of commitment, integrity, and unwavering dedication to the safety of our community.

**Don Nelson** was hired by Tooele City in 2000 as an animal control officer. Two years later, he was promoted to police officer and steadily moved through the ranks, eventually retiring as a patrol sergeant.

As a patrol sergeant, Nelson not only oversaw a patrol team but also played a vital role in training and developing new police officers as the supervisor of the department's Field Training Program (FTO). He was responsible for pairing experienced officers with newly hired recruits, ensuring they received hands-on training, mentorship, and evaluation. Under his guidance, new officers gained practical field experience and demonstrated competency before working solo patrols.

Throughout his career, Sergeant Nelson received numerous accolades, including recognition for noticing a bank robbery in progress while off duty, and stopping the bank robbers during their getaway. He also served on the SWAT team and was widely respected for his calm and quiet demeanor. A true advocate of community policing, he set an example through his dedication and service.

**Aaron Shepard** first joined the Tooele City Police Department in 2003 after serving as a police officer with another agency. In 2006, he transferred to the Investigations Division, where he worked as a detective until relocating in 2010.

In 2011, Aaron returned to the Tooele City Police Department and continued to advance through various roles, serving as a detective, patrol sergeant, and investigations sergeant until his retirement.

During his career, Sergeant Shepard served as a patrolman, field training officer, detective, and school resource officer. He also served on the Tooele County Drug Task Force, the Tooele SWAT team as a sniper and in entry positions, the ATF Liaison in the Project Safe Neighborhood Program, and a sergeant in patrol and investigations. He was also a valuable firearms instructor for the department.

Don Nelson

Aaron Shepard

On behalf of the entire community, I extend my heartfelt thanks to Officers Nelson and Shepard for their service, and congratulate them on their retirement. They will be missed!

I am grateful for all of our law enforcement officers who exemplify the very best of law enforcement, serving with courage, professionalism, and compassion. They protect our neighborhoods, support those in need, and work tirelessly trying to keep our City a safe and welcoming place for all.

## FROM THE FINANCE DEPARTMENT AT TOOEELE CITY

### April Bills:

April bills are on the way. You may have noticed, but we have not been out reading meters during the winter months. Each year the City estimates water usage for the winter months. This estimated usage is based upon the average water used at the location during the prior year (November-March). When we take the first reading of the year in the month of March, the consumption is then billed based off of actual usage. Customers will see a positive or negative consumption indicating that they are either being billed for unbilled water usage, or credited for unused units that have been billed for.

It is important to watch for high water consumption on your April billing as this can indicate a water leak during the winter months. Additionally, it will impact your next year's winter water average and your sewer average calculation (see below). If you notice an unusually high consumption, please call us and we will check the meter for leaks. Also, please be sure to report any leaks that have been repaired during these winter months to the Tooele City Finance Department for a partial credit to your account.

### Sewer Rate Re-calculations:

Sewer charges are calculated every year and your new monthly charge appears on the April bill. The sewer charge is calculated based off of actual water used during the winter months from November through March.

The sewer billing is a combination of two fees:

1. Base fee of \$10.50, +
2. A Base fee of \$3.00 per unit of water averaged during the winter months (calculated November through March, which normally accounts for internal water use only).

If your rate has increased, some common causes are: a change in the number of household members, working from home, outside watering after November 1st, and leaks on the inside or outside of the home during the winter months. If you did experience a leak, please call our office.

### Equal Pay Re-Calculations:

Customers currently enrolled in our equal pay program will have their equal pay amounts re-calculated on the April bill. Equal Pay is an average of what is actually used for the last 12 months of billing for all services billed. It is important to note that actual meter readings of winter usage and sewer rate changes reflected on the April billing will not impact this re-calculation as it will be for service from April 2024—March 2025 billings.

It is very important for all equal pay customers to review their water usage monthly as this is the only way to quickly identify a possible leak or problem. If usage is not monitored, it can take up to 12 months for this to show up in your billing, which not only costs you money but wastes our precious resource. Please report any unusually high usage amounts to our office.

The Finance Department can be reached at (435) 843-2150 or at [utilities@tooelecity.gov](mailto:utilities@tooelecity.gov).

## -Notice-

### Water and Sewer Fees

Dear Tooele City Residents,

We want to inform you of proposed changes to the water and sewer rates on your Tooele City utility bill. These rates are the second annual rate adjustment based on an external rate study implemented in April 2024, which highlighted the necessity of gradual fee adjustments over the next five years.

Rising operational costs and critical infrastructure improvements make these adjustments necessary to maintain the efficiency and reliability of our public utility systems.

We understand that any increase in fees can pose challenges, please be assured this decision was made with careful consideration of the vital role our public utilities play in your daily lives. Tooele City is committed to providing efficient, quality drinking water and waste water services, including sewer treatment, without interruption.

Sincerely,  
Tooele City Public Works Department

### WATER CONSERVATION

As Spring approaches, it is important to our community that we be mindful of water conservation and implement good watering practices. Don't start watering too early! Thank you for your efforts over the many years we have had our water conservation schedule in place! Watch for the outdoor Water Conservation Schedule in next month's newsletter.

Have you ever wondered who is responsible when your sewer lateral or water service line needs repair? City Code §8-6-13 states "All building sewers, including the connection to the POTW sewer, shall be maintained by the property owner". Property owners are responsible for their

own sewer laterals up to the wye connection to the main sewer line. City Code §9-4-6 states "Tooele City shall maintain the service pipe from the main line to and including the water meter and other apparatus within the meter box". Property owners are responsible for their own water lines from the meter box connection into the property and structure. Did you know that Utah law requires the City to educate citizens on this? Check with your homeowners insurance to inquire if your policy covers these types of repairs. There are private companies who offer this type of insurance coverage if your homeowners insurance does not. If you have any questions, please feel free to contact the Public Works Department at 435-843-2130.

"You may think you're already protected against flood damage, but you're probably not. Flooding is the most common natural disaster in Utah, yet most homeowners and renters aren't properly covered. Get to know the facts about flood insurance and get protected."
