

Request for Proposal (RFP) for Property Cleanup Services

Addendum No. 1

September 30, 2026

To All Prospective Proponents:

You are hereby notified that the following changes, clarifications, and/or corrections have been made for the above referenced project.

Questions and Clarifications

1. For the standard overgrown weeds/vegetation and trash/debris cleanup pricing, the RFP states that pricing should include all equipment. Should bidders assume that equipment such as skid steers or other compact equipment may be required and should be included in the standard price, or is the standard scope intended to primarily include typical handheld/landscape cleanup equipment, trucks, and trailers?

You can give us two separate rates. One with the equipment and one without.

2. The agreement states that the total contract amount shall not exceed \$20,000. Is the \$20,000 maximum for the entire contract term through June 30, 2028, or is that a maximum per property/work order?

\$20,000 max for the entire contract.

3. The RFP mentions multiple public and private properties that have already been identified. Are the addresses, photos, or descriptions of those properties available for bidders to review?

No, properties will be a case-by-case basis, identified after the Contract is in place.
